

Building owners' trust.™

March 13<sup>th</sup>, 2013

Jeff Jelke  
Vice President Operations  
Triangle Construction

Mr. Jelke,

I would like to take this time on behalf of CSM Group to recognize Circuit Electric for their outstanding performance on the projects we have worked on together – including numerous Kalamazoo Public Schools' projects (from remodels to a new middle school) and the recently completed Family Health Center of Kalamazoo. Circuit Electric consistently makes efforts to go above and beyond to ensure project success with the coordination and cooperation necessary at every step of the way.

A recent project that comes to mind was a \$1.5 million lighting replacement at Kalamazoo Central High School which was completed over two (8-10 week duration) summers in 2011 and 2012. Circuit Electric was proactive and completed both phases of this project on time, safely, and with great quality.

Additionally, I feel it's important to note that CSM Group honors the top performing 10% of the contractors we work with and Circuit Electric was a recipient of our Key Performer Award for 2012 – the highest rated electrical contractor. Circuit Electric is committed to every project they work on, team players, their staff professional and ethical, and they take pride in their work. They value safety on the jobsites, perform at a high standard, and respond promptly.

I highly recommend Circuit Electric for any of your future projects as CSM is proud to have them as a partner. If you have any further questions please feel free to contact me.
