RE: Letter of Recommendation for Circuit Electric

To Whom It May Concern,

It is my pleasure to write this letter of recommendation for Circuit Electric. I have had the pleasure of working with Dan Cunninham and Circuit Electric dating back to 2005. They have completed two large, multiphase, fast paced, complex projects as a major part of our team. They were steadfast in their approach and always helped drive our project goals to consistently meet our continuing milestones.

In 2007 we renovated Calvin College's existing Fieldhouse. When the project was complete we turned over a 340,000 sf facility that housed a very high end athletic complex. One of the three major additions was a new natatorium that housed an Olympic size competition pool. Circuit was a critical team member in bringing this detailed space on board by working on the general building electrical items along with the pool equipment. Constructing a new pool takes a tremendous amount of coordination and planning. Circuit helped with that effort.

The third project that I worked with Circuit on was far less demanding than the previous two but frankly I think it speaks to the character of their firm and how their values align with ours. We have an ongoing relationship with Habitat for Humanity of Kent County and in 2009 they had outgrown their existing headquarters. We had an opportunity to help renovate an existing elementary school that they acquired. In order to keep the costs low we reached out to our subcontracting community to see who would help to find a way to get them in a new office. Circuit volunteered to do the electrical design and construction at a heavily donated rate. Through efforts of firms like Circuit Electric we were able to build them a first class office facility at a fraction of the price.

I have enjoyed working with Circuit's staff from the top to the bottom. Their management is timely in returning paperwork and phone calls and their field staff is respectful and have a high level of integrity. I am confident that you will find a similar experience.

If I can be of further assistance, please do not hesitate to ask.

Sincerely,
THE CHRISTMAN COMPANY

Pat Zawacki
Senior Project Manager
