Grand Rapids, MI 49544

Dear Jeff:

Too often in business we forget to acknowledge those vendors that provide outstanding customer service and project management representation to customers.

Thank you for the opportunity to recommend Circuit Electric for work at Hudsonville High School.

Circuit Electric, specifically Dan Cunningham, began working in Kentwood Schools in August, 2003 at the inception of our bond issue. Our relationship began with the construction of our football stadium and continued through a \$32 million renovation at East Kentwood High School (including the Natatorium and athletic stadium).

During each project, Circuit was committed to the end result; a satisfied customer and job completed timely and within budget. On one specific instance, Dan worked through the night in an underground pit to resolve an emergency electrical issue as we had school scheduled the following day. This is one example of Circuit Electric going above and beyond the necessary limits.

Circuit Electric continues to provide outstanding service and support to the district through general service and emergency work. Without question, my full recommendation goes to awarding a contract to Circuit Electric.

Thank you again for the opportunity. Please feel free to contact me with any questions.

Sincerely,

Todd Bell
Director of Operations
